

# Level 6 Peer Assessment Form

## Web Development - Turner

Your Name: Steven Hsui

Project Designer: Issac Zheng

Project Title: Thirty-One

Did this project work according to the spec sheet? Yes

Were any of the enhancements included? No

Was there something in the code that you didn't understand? Please elaborate.

No

What did you really like about the project?

Animations!

Good data structure

Pretty display

What would you change about the project and/or the code?

Label player numbers

Indicate that the numbers in the square is the number of strikes left

Don't animate the player's hand before a card is drawn from a deck since player can't click

Next round button should have hover effect

Eventabsolute class width CSS rule shouldn't cut off text when multiple players get eliminated together

Human player shouldn't be able to keep playing after all 3 computer players have been eliminated together
