Project Rubric - Level 2

Rater (that's you) _____

Designer (the person who programmed it) _____

Project _____

Concerns Areas That Need Work	**Criteria** Standards for Performance	**Advanced** Evidence of Exceeding Standards
<u>Comprehension</u>	<u>Comprehension</u>	<u>Comprehension</u>
	The program runs without errors. All specifications have been met.	
<u>Sequencing</u>	<u>Sequencing</u>	<u>Sequencing</u>
	The natural flow of the page is intuitive and user friendly. All hyperlinks lead to the appropriate pages and there is a navigational route back to the beginning.	
<u>Variables</u>	<u>Variables</u>	<u>Variables</u>
	There is a distinctive front end and back end in the code. All Javascript manipulation of CSS uses variables to keep track of the "state" of the display and the display is updated according to the values of those variables.	
<u>Display</u>	<u>Display</u>	<u>Display</u>
	There is an intuitive user interface. All formatting has been done through the use of current (non-deprecated) HTML tags. There should be no CSS in evidence.	
<u>Planning</u>	<u>Planning</u>	<u>Planning</u>
	There is evidence of planning which may include (but is not limited to): An outline of the program, pseudocode, or different versions.
